  - Brent

### Blockers + Surprises

Things that impeded progress this week. Things that came up or were discovered that you didn't expect. Possible resolution strategies for moving forward.

- Could not complete database implementation for all the pages
  - Did not have sufficient time to implement the database for every page
    - Will work on other pages throughout the weeks

## 2. Learning Activity

Summary of your team's learning activity for the week. Name which students worked on it.

- Look into management process for backend
  - Account Management, Classes
    - Ross

## 3. Plan

**Task for this week:**

What we will work on this week. Organize by task/activity. Name which students will work on each task/activity.

- Program the database structure
  - Ben
  - Ross
- Work on fixing the final virtue ethics page
  - Brent
- Refactoring the frontend
  - Ross
  - Michael
- Update the dashboard page
  - Ross
- Work on report
  - Everyone
- Teacher/TA implementation
  - Ross

**Learning activities proposed for this week:**

- Back-end management

**Goals for the next milestone:**

1. Refactor parts of the frontend
2. Finish database implementation for all the pages
3. Finish teacher/TA implementation
4. Refactor user tasks for peer-testing session
5. Complete peer testing report
