Blockers + Surprises

Things that impeded progress this week. Things that came up or were discovered that you didn't expect. Possible resolution strategies for moving forward.

- Brent was sick for the week
    - Could not complete as much as he could for the dashboard
    - Had to delay peer testing sessions for next week
        - Not much we could do to expect this issue
- Storms caused power outages and delays for users to get home

- o Ross's power went out
- o Brent was stuck from getting home due to the broken roads
  - ▪ Not much we can do to control the issues
- Could not store utilitarianism variables into session
  - o Research on backend for Node js was limited
    - ▪ Should make more chores surrounding research into frameworks

2. Learning Activity
